

EIIHA Workgroup Motions: FY 2017 EIIHA Target Populations 09/12/2016

The EIIHA Workgroup met this afternoon (September 12, 2016). Participants included representatives from prevention and care, community members, and consumers. The Workgroup reviewed the FY 2017 guidance from HRSA, adopted selection criteria, and selected the FY 2017 target populations. Please note the target populations selected are identical to the populations selected for the FY 2016 EIIHA Plan.

Item: FY 2017 EIIHA Plan Target Populations

Recommended Action: Motion: Approve following target populations for the FY 2017 EIIHA Plan:

1. African Americans
2. Hispanics/Latinos age 35 and over
3. Men who have Sex with Men (MSM)

Office of Support is to include information on HIV and aging in the EIIHA section of the HRSA application.

Recommended Action: Motion: Office of Support is to include a statement in the EIIHA section of the HRSA application recognizing that currently available epidemiologic data do not portray the need for testing, referral, and linkage in at-risk populations such as among those who are transgender, intersex, homeless, or those released from incarceration.

The Comprehensive HIV Planning Committee will meet will be on Thursday, September 15, 2016 at 11:00 a.m. to review and approve the FY 2017 EIIHA Plan target populations.

All are welcome to provide public comment at the September 15th Comprehensive HIV Planning Committee meeting. Those unable to attend are encouraged to provide input via phone, email or fax to the Amber Harbolt no later than Thursday, September 15, 2016 at 9:00 a.m. Those submitting input via email or fax are encouraged call to confirm receipt.

Input can be submitted via:

Phone: (713) 572-3724
Email: amber.harbolt@cjo.hctx.net
Fax: (713) 572-3740

Thank you very much,
