

ADAP ENROLLMENT WORKER

AIDS Drug Assistance Program (ADAP) enrollment worker, technically referred to as *referral for health care and support*, describes a service that helps people living with HIV (PLWH) access medication coverage by ensuring the efficient and accurate submission of ADAP applications to the Texas HIV Medication Program (THMP). ADAP enrollment workers meet with all potential new ADAP enrollees, explain ADAP program benefits and requirements, assist clients with the submission of complete, accurate ADAP applications, and submit annual re-certifications.

(Graph 1) In the 2020 Houston HIV Care Services Needs Assessment, 60% of participants indicated a need for *ADAP enrollment worker* in the past 12 months. 58% reported the service was easy to access, and 2% reported difficulty. 12% stated they did not know the service was available.

(Table 1) When barriers to *ADAP enrollment worker* were reported, the most common barrier type was education and awareness (30%). Education and awareness barriers reported include lack of knowledge about service availability and who to contact to access the service.

TABLE 1-Top 3 Reported Barrier Types for ADAP Enrollment Worker, 2020

	No.	%
1. Education and Awareness (EA)	3	30%
2. Administrative (AD)	2	20%
3. Eligibility (EL)	2	20%

(Table 2 and Table 3) Need and access to services can be analyzed for needs assessment participants according to demographic and other characteristics, revealing the presence of any potential disparities in access to services. For *ADAP enrollment worker*, this analysis shows the following:

- More females than males found the service accessible.
- More Hispanic/Latino PLWH found the service accessible than other race/ethnicities.
- More PLWH age 18 to 24 found the service accessible than other age groups.

In addition, more out of care, rural, and homeless PLWH found the service difficult to access when compared to all participants.
