

OUTREACH SERVICES

Outreach services are provided for people living with HIV (PLWH) who have missed primary medical care appointments without rescheduling, and who may have other risk factors for falling out of care. The goal of *outreach services* is to support retention in care. Services are field-based, and include assistance with medical appointment setting and accessing supportive services, advocating on behalf of clients to decrease service gaps and remove barriers to services, and helping clients develop and utilize independent living skills and strategies.

(**Graph 1**) In the 2020 Houston HIV Care Services Needs Assessment, 5% of participants indicated a need for *outreach services* in the past 12 months. 4% reported the service was easy to access, and 1% reported difficulty. 9% stated that they did not know the service was available.

GRAPH 1-Outreach Services, 2020

(**Table 1**) When barriers to *outreach services* were reported, the most common barrier type was interactions with staff (71%). Interactions with staff barriers reported include poor correspondence or follow up.

TABLE 1-Top Reported Barrier Type for Outreach Services, 2020

	No.	%
1. Interactions with Staff (S)	5	71%

(**Table 2 and Table 3**) Need and access to services can be analyzed for needs assessment participants according to demographic and other characteristics, revealing the presence of any potential disparities in access to services. For *outreach services*, this analysis shows the following:

- More males than females found the service accessible.
- More Black/African American and Hispanic/Latino PLWH found the service accessible than other race/ethnicities.
- More PLWH age 50+ found the service accessible than other age groups.
- In addition, more homeless, MSM, recently released, and transgender PLWH found the service difficult to access when compared to all participants.

TABLE 2-Outreach Services, by Demographic Categories, 2020

Experience with the Service	Sex (at birth)		Race/ethnicity				Age		
	Male	Female	White	Black	Hispanic	Other	18-24	25-49	50+
Did not know about service	22%	17%	22%	19%	22%	23%	57%	25%	11%
Did not need service	42%	40%	57%	45%	33%	38%	24%	34%	53%
Needed, easy to access	34%	40%	17%	34%	42%	38%	19%	37%	34%
Needed, difficult to access	3%	2%	4%	2%	2%	0%	5%	3%	1%

TABLE 3-Outreach Services, by Selected Special Populations, 2020

Experience with the Service	Homeless ^a	MSM ^b	Out of Care ^c	Recently Released ^d	Rural ^e	Transgender ^f
Did not know about service	23%	23%	20%	28%	26%	21%
Did not need service	28%	42%	37%	30%	37%	42%
Needed, easy to access	37%	32%	43%	39%	37%	35%
Needed, difficult to access	12%	3%	0%	3%	0%	2%

^aPersons reporting current homelessness ^bMen who have sex with men ^cPersons with no evidence of HIV care for 12 mo.

^dPersons released from incarceration in the past 12 mo. ^eNon-Houston/Harris County residents ^fPersons with discordant sex assigned at birth and current gender
